Edicar Plásticos was established with an accumulated experience of more than 30 years in construction waterproofing sector, being focused in the last decade mainly on swimming pool industry.

The CEFIL POOL reinforced membrane is adaptable to any swimming pool, whether the size, placement or use, and also, to any surface (metallic, concrete, polyester, etc.) guaranteeing during 10 year the watertightness.

Our reinforced membrane is produced in our facilities in Vitoria-Gasteiz (SPAIN), meeting all the requirements according to the European Standard UNE EN15836-2 for PVC reinforced membranes.

CEFIL POOL brand is currently present in more than 45 countries all over the world, and the popularity and prestige is increasing day by day.

Our R&D&I is in constant search of new solutions and vanguardist designs with the aim of satisfying the most demanding markets. We are proud to announce on this 2023 catalogue the newest ONYX Collection,

texturized and with very natural finishings, which will make your swimming pool and garden the central point of your home.

In the current pricelist we present all our collections, including a full range of Grade C certified anti-slip reinforced membranes, being especially recommendable for children swimming pools, public swimming pools and areas of low depth, offering the maximum security to swimmers and users.

We include wide range of accessories, geotextiles, collaminated profiles, contact glue, liquid PVC, all mandatory for a correct installation and assembly of CEFIL POOL waterproofing system.

It is fundamental for the proper use of the reinforced membrane, and with the aim of making sure the right conservation, the following all recommendations of storage, installation and maintenance, all included in our website: <https://www.cefilpool.com/en/home/>

The team of CEFIL POOL is at your full disposal for further technical, commercial or operative information.
