

WARRANTY GRANTED BY CEFIL POOL

FOR ITS REINFORCED MEMBRANES FOR SWIMMING POOL WATERPROOFING: ONYX, KERAMIK AND VICTORIA COLLECTIONS

EDICAR PLÁSTICOS, S.L., as the manufacturer of the CEFIL POOL commercial brand, certifies that the waterproofing membrane CEFIL POOL RPL 150 complies with all requirements established for the waterproofing of swimming pools according to the current European standard UNE-EN 15836-2.

Accordingly, all references included in the ONYX, KERAMIK, and VICTORIA collections, and production date after 01/01/2026, are granted an extended warranty of:

15 years for watertightness

3 years for color warranty

For this certificate to be valid, the following conditions are essential:

- The customer must keep the necessary documentation to identify the batch of material covered by the warranty, as well as the product purchase invoice.
- The storage conditions published on the website must be respected (horizontal position of rolls in their original packaging, stored in a dry area without humidity or extreme temperatures).
- The material must have been installed by an installer certified by CEFIL POOL Academy.
- Installation must comply with all applicable standards and legal requirements.
- Construction work related to the installation must have been carried out according to the recommendations provided in the technical documentation supplied and published by EDICAR PLÁSTICOS, S.L.
- Once installation is completed, within 30 days, the client or pool installer must request the extended warranty by completing all required information in our online form.
- The material must have been used for its intended purpose, and any deterioration must not be due to defective installation and/or inadequate maintenance.
- During the warranty period, defects must not be caused by external mechanical influences or extraordinary physical, chemical, organic, or climatic influences, nor by the use of materials incompatible with PVC.
- No excessive or abnormal concentrations of additives used for pool maintenance may have been applied, as specified in the maintenance guide provided with the material and published on our website.
- All recommendations required by current legislation regarding pool water treatment must have been followed, and water quality parameters must comply with those established in the maintenance guide published on our website.
- The water temperature must not exceed 32°C.
- Products containing copper or copper derivatives must not have been used in pool treatment.
- Different manufacturing batches must not have been used in the same pool installation.
- The direction and orientation of the different sheets must have been properly considered during

WARRANTY GRANTED BY CEFIL POOL

FOR ITS REINFORCED MEMBRANES FOR SWIMMING POOL WATERPROOFING: ONYX, KERAMIK AND VICTORIA COLLECTIONS

- Inappropriate pool cleaners or cleaning aids must not have been used (e.g., brushes with hard or sharp bristles, scouring pads, steel wool, etc.).
- Damage must not be caused by conditions exceeding normal use, including but not limited to impact from foreign objects or pool traffic (including damage caused by cleaning robots or other automatic cleaning devices).
- Pool water must not have deteriorated due to lack of treatment, especially during periods of low use.
- Empty or semi-empty pools must be covered with a pool cover to prevent sunlight and pollution damage.
- Discoloration must affect at least 1% of the pool surface.
- Stains must be permanent after applying the treatment recommended by our technicians.
- Discoloration must not affect the waterline due to poor pool maintenance.
- The customer must be up to date with all payment commitments.
- The defect must be reported in writing to EDICAR PLÁSTICOS, S.L. as soon as it is discovered. Before any repair or replacement, technical staff from EDICAR PLÁSTICOS, S.L. must be given the opportunity to inspect the affected installation if deemed necessary. If repairs are carried out before this inspection, the warranty becomes void.

For the issuance of a specific certificate for each installation, all related data (material used, quantity, installer, location, installation date, manufacturing batch, etc.) must be correctly completed. This information will be requested from the customer as necessary.

In any case, the warranty is limited to the replacement of the material supplied by EDICAR PLÁSTICOS, S.L., and does not cover any additional costs such as assembly/disassembly, accessories, etc.

The expiration period of the warranty will not be extended in the event that material replacement is required.
